

# REFORM COMES TO HERTFORDSHIRE

## Mel Clifford for Reform

I've lived in the Three Rivers Rural constituency since the 80's. Until recently a successful businessman and executive, I now spend my days helping school students realise their full potential.

I promise to work hard in the interests of local people and businesses and to hold the Council to real scrutiny.

## A Council in Crisis

HCC is running a huge deficit, and is deeply in debt. Just the interest is costing us £60,000 a day. Money that could and should have been spent in the county.

## We can't keep voting Tory and Lib Dem.

What do the Tories stand for now? It used to be stability, financial competence, balanced budgets, the safety and security of citizens.

Those days are gone. Whether in Parliament or council chambers, we never know when the leadership will change, or if they will deliver real conservative values.

## Hertfordshire Needs Reform

After decades of Tory leadership our County Council is **deep in debt**. With dozens of officers earning between £100,000 and £240,000. A CEO who took a £5,000 pay rise in 2024.

Our roads are disintegrating. Getting to and from work is a nightmare. Our rivers are polluted. Fly-tipped waste fills our lanes. Our schools struggle with funding, class sizes and teacher recruitment. Meanwhile our council is wasting money on dubious net-zero programs and DEI initiatives. And they just voted to restrict access to waste sites, which will drive **still more fly-tipping**.

**Only Reform will make a difference.** Only Reform will change the way the Council is run to bring back sensible policies to benefit the county.

You can **send a message** - you can **vote Reform on May 1st**.

# REFORM UK

## Our Contract With You

Britain has so much potential. Our country is full of talent and energy.

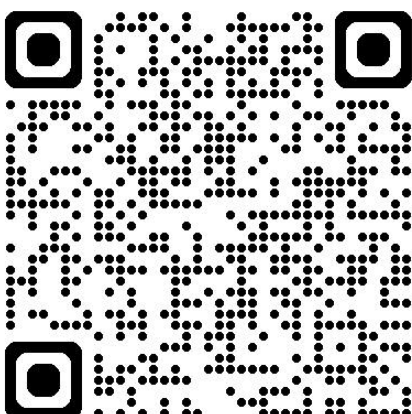

Both Labour and Tory governments have broken promise after promise. They have destroyed trust in our democracy and betrayed the British people. Our country is worse off, both financially and culturally. The economy is being wrecked by **record high taxes**, record high national debt, wasteful government spending and nanny state regulations. **Record mass immigration** has damaged our country. The small boats crisis threatens our security.

Multiculturalism has imported separate communities that reject our way of life. Divisive ideologies have captured our public institutions. The unprecedented population explosion has pushed Britain to breaking point. There's a housing crisis. A benefits crisis. Record crime. Record NHS waiting lists. Wages are stagnating. Net Zero has sent energy costs soaring. It is making us poorer and colder, damaging British industry and forcing drivers off the road.

The Tories have broken Britain. Labour will bankrupt Britain. A vote for either is a vote for more incompetence, dishonesty and defeat. We are ruled by an **out-of-touch political class** who have turned their backs on our country. But there is an alternative. The British people now have a common sense choice in Reform UK.

**Our Contract with You** is a serious plan to reshape the way our country is run. The government must work for the British people. Not against them. Only Reform UK will stand up for British culture, identity and values. We will freeze immigration and stop the boats. Restore law and order. Repair our broken public services. Cut taxes to make work pay. End government waste and deliver our fully funded plan for zero NHS waiting lists. We will unlock Britain's vast energy treasure of oil and gas to slash energy bills, beat the cost-of-living crisis and unleash real economic growth. Once and for all, we will take back control over our borders, our money and our laws. **Only Reform UK will secure Britain's future** as a free, proud and independent sovereign nation.

Nigel Farage, Reform UK
