"I'm running to be your County Councillor for South Oxhey & Eastbury—the community my family has called home for three generations.

I'm not a career politician; I'm in my 20s and fed up with our area being ignored. With experience managing multi-million-pound sports facilities and community projects, I know investment in people and places makes a real difference. For too long, politicians have let us down. I'm standing to fight for real change and put our community first."

Some of our local Issues – And What I'll Do About Them

🚧 Fix Our Roads & Transport – No more endless roadworks, potholes, or unreliable buses.

👮 Tackle Crime & Antisocial Behaviour – I'll push for tougher action on burglary, fly-tipping, and antisocial behaviour with more police patrols and better street lighting. But we need to prevent crime too, not just react to it. I'll invest in youth clubs, job opportunities, and community projects to give people a purpose and a better future.

🏫 Better Schools & A New Secondary School – Fight for proper school funding and a new secondary school in South Oxhey.

🏗️ Stop Overdevelopment – No more reckless housebuilding without investment in roads, the NHS, local services and other infrastructure.

🏢 A Business Hub for Everyone – Supporting local businesses and aspiring entrepreneurs of all ages. Our Business Incubator and Local Enterprise Investment Programme (LEIP) will offer funding, mentorship, networking, and business loans to help people start and grow successful businesses. By reinvesting repayments, we'll build a self-sustaining local economy that benefits everyone.
